Sub: Reference for Creative Labs

Team Creative Lab was handed over the responsibility of fit-out for our new office set up in Dubai, and they completed the job with at most professionalism. The technical details were well explained with clarity. They also put forward fresh and innovative ideas that were executed to near perfection.

The Creative Lab Team are easy to work with and they understood our needs and requirements. They also ensured the fit out was completed to our deadline, which was of prime importance to us.

I will certainly recommend Creative Lab for any jobs in their scope, in view of the professionalism and systematic approach they have.

Thanks & regards,

Reon Durgapersad
