### TO WHOM IT MAY CONCERN

Creative Lab Interior was contracted to set-up the interior fit-out of our new office in JAFZA One, and was completed as per the time-frame we have agreed upon.

The Team proved to be thrived with utmost professionalism and strived to deliver with highest quality of standard. Each member of the Team is technically capable and well-versed with their craft. Though the work had already been done and handed-over for more than a year now, they are still there for us should there be a need for their expertise.

Our Office deem to be the first Office being design/lay-out by Creative Lab within JAFZA One Building, hence, can be the focal reference showroom for any related jobs within their scope of work.

Regards,
