LETTER OF APPRECIATION

This is to inform you that M/s Creative Lab Interiors LLC has done the Interior Designing and Fit-Out Works in our new office – 1907, Tower A, JAFZA One Building, Jebel Ali Free Zone, including installation of new furniture.

The quality of their work is excellent and their team is well versed in their work. They are committed to delivering their projects in time. We had made several modifications in layout and design during the course of execution of our project and also asked for some additional work. Still, they were able to complete the project in time and we were able to shift to our new office within the time promised to us at the start of the project.

Another commendable quality of Creative Labs is their focus on customer satisfaction. After we had moved inside our new office, we found some snags in IT and other areas. Their team worked overtime to resolve all those issues to our satisfaction. Even now when they have handed over the office to us completed in all respect, we still have the confidence that we can call them anytime for any issues that may arise and they will promptly resolve them.

I would highly recommend Creative Labs to any company who wishes to engage them for their Interior and Fit-Out Works.

Yours Sincerely,

TO WHOMSOEVER IT MAY CONCERN

Creative Lab Interiors were recently awarded the task to redesign and build the outlet with a totally new look and feel.

The team came up with fresh innovative ideas and have done a fantastic job with the design and Interior Fit out.

The quality of finishes delivered and the attention to detail is truly commendable.

It was project with tight timelines and the outlet had to be built with minimum impact on our daily operations. Creative lab's team have delivered the space within the committed timelines and worked in phases with perfect co-ordination and professionalism. Their team and staff are well trained, which reflects in their work and onsite hands down experience.

I would highly recommend Creative Lab Interiors to anyone looking to engage a professional, Creative & Quality focused company for Interior design and build projects.

We awarded the fitout of our new office in JAFZA One Tower to Creative Labs and we were impressed with the work done by their team. They delivered the office on time, the only delays we experienced, were from the JAFZA authorities and not Creative Labs.

We had several modifications to layouts and design, and they accommodated for each one. Since office occupation, they have also assisted with additional work required and we know that if we have any issues in the future, they will gladly assist and resolve in the shortest time possible.

I can therefore recommend Creative Labs to any company for interior fit-out works.

Letter of Appreciation

To whom it may concern,

This letter is to state our appreciation and satisfaction of the jobs Creative Lab Interior Decoration LLC has done for us. We hired Creative Lab Interior Decoration LLC to perform two projects in JAFZA One building, and we can say with great confidence that they have done a wonderful job. From the initial planning, to execution, to following up with different vendors and governmental parties, and their compliance with the little customized details we asked for. I would also like to point out that their customer service is admirable, they always respond as soon as possible and work under pressure even with our dynamic requirements. Additionally, their design team always came to the aid when we hit a dead end with fresh and creative ideas. I would definitely hire them again and would also recommend them to others.

Thank you,
